- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Investment objective:

Investment policy:

- Exposure to equity instruments will depend on the outlook of the financial markets and Portfolio Manager investment views (exposure to equity instruments may represent more than 50% of the net assets).
- It is intended to give the Portfolio Manager maximum flexibility to invest the assets of the Sub-Fund to achieve the highest possible return to the investors, in light of the Sub-Fund's investment objective and policy and within the limits set by in the Appendix II.
- The choice of investments will neither be limited by geographical area nor economic sector. However, depending on financial market conditions, a particular focus can be placed in a single country and/or in a single economic sector.

- The Sub-Fund may use financial derivative instruments for both hedging and/or investment purposes.
- The Sub-Fund may also invest in structured products, qualifying as Transferable Securities, such as but not limited to credit-linked notes, certificates or any other Transferable Securities whose returns are correlated with changes in, among others, an index (including indices on volatility, commodities, precious metals, etc), in currencies, in exchange rates, in Transferable Securities or in a diversified basket of Transferable Securities, commodities with cash settlement (including precious metals) or an undertaking for collective investment.
- In the best interest of the Shareholders, and notably for defensive purposes, the Sub-Fund may also hold, up to 100% of its net

assets, liquidities such as (but not limited to) cash deposits, money market funds and Money Market Instruments.

- The Sub-Fund may hold up to 20% of its net assets, in ancillary liquid assets which consist of bank deposits at sight in accordance with the provisions of Article 41(2) of the Law of 17 December 2010. Notwithstanding the above provisions; the above mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavorable market conditions, circumstances such as the September 11 attacks or the bankruptcy of Lehman Brothers in 2008.
- The Sub-Fund is actively managed without reference to a benchmark.
- This financial product does not promote environmental or social characteristics and does not have as its objective a sustainable objective.
- The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.
