Accurate as of: 27 December 2025

What is this product?

Type

- This product is a class of shares of the Sub-Fund and denominated in EUR. The Fund is an open-ended investment company with variable capital ("SICAV") and qualifies as an Undertaking for Collective Investments in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 related to undertakings for collective investments ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Investment objective:

- The Sub-Fund seeks to achieve medium to long-term capital appreciation, with added emphasis on the protection of capital during unfavourable market conditions, through a dynamic allocation between the eligible financial assets, the economic sectors and the geographical areas.
- The Sub-Fund will be managed in order to keep a medium level of risk exposure to market fluctuations.
- There is however no guarantee that this objective will be achieved.

Investment policy:

- The Sub-Fund intends to achieve its objective mainly by the active management of a global portfolio of diversified eligible financial assets across a wide range of asset classes (more particularly equity and debt securities) in varying proportions over time.
- No more than 60% will be invested in equities and equity-related securities. The remainder may be invested in debt securities and/or in money market instruments.
- The Sub-Fund may when the portfolio manager considers it opportune, invest up to 10% of its net assets in units of other UCITS and/or other UCIs whose investment policy helps achieve the Sub-Fund's investment objective.
- The Sub-Fund may invest up to 20% of its net assets in investment grade structured securities such as ABS, MBS or collateralized obligations with a pay-off linked to the relevant markets rather than actually investing in the markets.
- The Sub-Fund may use financial derivative instruments for hedging and/or investment purposes, such as but not limited to warrants, futures, options, swaps and forwards on currencies, interest rates and transferable securities. The Sub-Fund may reach a maximum of 100% derivatives exposure (netted).
- The Sub-Fund will not invest more than 20% of its net assets in ancillary liquid assets, being cash and bank deposits at sight (such as cash held in current accounts), in normal market conditions. Under exceptionally unfavourable market conditions and on a

temporary basis, this limit may be breached, if justified in the interest of the investors.

- The Sub-Fund is actively managed without reference to a benchmark.
- This financial product does not promote environmental or social characteristics and does not have as its objective a sustainable objective.
- The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.
- Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 5 years.

Redemption and dealing: Shareholders may redeem shares on demand, on a daily basis, which is a bank business day in Luxembourg.

Distribution policy: Non-distributing shares: any income generated by the Sub-Fund is reinvested.

Intended retail investor

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performances of the product over the last 10 years, by identifying, depending on the performance scenarios and as defined in the Key Information Document's EU regulation, all overlapping sub-intervals individually (i) equal in length to the recommended holding period which start or end in each month which are contained within that period of 10 years or (ii) equal or shorter in length to the recommended holding period, but equal to or longer than one year, which end at the end of that period of 10 years.
