This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

### HALLEY SICAV - ALINEA GLOBAL - Class - I (ISIN:LU0908524936)

#### a sub-fund of HALLEY SICAV

This fund is managed by Andbank Asset Management Luxembourg

#### Objectives and Investment Policy

- The Sub-Fund seeks to achieve medium to long-term capital appreciation, with added emphasis on the protection of capital during unfavorable market conditions.
- The risk exposure to the market fluctuations is medium.
- No more than 60% will be invested in equities. The remainder may be invested in debt securities and/or in money market instruments. No more than 10% of its net assets will be invested in units of other UCITS and/or UCIs.
- The Sub-Fund may invest up to 20% of its net assets in investment grade structured securities such as ABS, MBS or collateralized obligations with a pay-off linked to the relevant markets rather than actually investing in the markets.
- The Sub-Fund may use financial derivative instruments such as warrants, futures, options, swaps and forwards on currencies, interest rates and transferable securities (maximum exposure: 100%).
- Shareholders may redeem shares on demand, on a daily basis.
- Notwithstanding the above provisions and if justified by exceptional market conditions, the Sub-Fund may invest up to 100% of its net assets in cash and cash equivalents, term deposits, debt securities and money market instruments dealt in on a Regulated Market and whose maturity does not exceed 12 months, monetary UCITS and UCIs.
- Non-distribution shares: any income generated by the Sub-Fund is reinvested.
- Please note that transaction costs may have material impact on performance.

#### Risk and Reward Profile

- Historical data used may not be a reliable indication of the future risk profile of the sub-fund.
- This category is not guaranteed to remain unchanged and may shift over time.
- The lowest class does not mean that the investment is risk free.
- This fund was categorised in risk class 5 because, in accordance with the investment policy, the value of the investments may fluctuate somewhat sharply. Consequently, both the expected return and the potential risk of loss may be above average. This indicator is based on benchmarks historical performance data based on the last 5 years volatility and places the sub-fund in this category.
- The sub-fund is in a medium risk category because investments in equity are limited to 60%, remaining assets are invested in fixed income and/or cash equivalent.

#### The sub-fund is subject to the following risks:

- **Credit risk:** the Fund invests in securities which are exposed to the risk that the issuer will be unable to meet its repayment obligations. The credit rating and risks associated with such securities can change over time and therefore affect the value of the investments.
- **Liquidity risk:** Securities may become less liquid during extreme market conditions and it may be difficult for unitholders to get redemption proceeds in a timely manner.
- **Counterparty risk:** Risk that the counterparty to mutually agreed contracts does not meet its obligations.
- **Operational risk:** Risk of material loss resulting from human error, technical faults, inappropriate procedures or controlling.
- **Use of derivatives:** The sub-fund invests in derivatives for hedging and other investment purposes, increasing or reducing exposure to underlying assets.
- **Currency risk:** Investments in securities denominated in currencies other than the Sub-fund's Base Currency may be subject to adverse fluctuation in currency exchange rates.
- **Duplication of certain fees and expenses:** Where investments are made in other funds, this might result in duplication of certain fees and expenses for investors. Investors are also subject to potential risks associated with such funds.
- **Market risk:** The value of assets in the Portfolio is typically dictated by a number of factors, including the confidence levels of the market in which they are traded.
