You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type

■ This product is a class of shares of the Sub-Fund and denominated in EUR. The Fund is an investment company with a variable capital and qualifies as a Special Investment Fund ("SIF"), subject to the Luxembourg law of 13 February 2007 related to SIF and as an Alternative Investment Fund ("AIF") subject to the Luxembourg Law of 12 July 2013 related to Alternative Investment Fund Managers ("AIFM") and transposing Directive 2011/61/EC.

■ As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Investment objective:

■ The Sub-Fund's investment objective is to achieve capital appreciation on behalf of its investors. The Sub-Fund will pursue its investment objective by constructing a portfolio of positions, predominantly in the listed equities (including contracts for difference and other equity linked instruments) of European infrastructure focused companies, specialized in energy related sectors, as well as other related or adjacent companies. The Sub-Fund may also have exposure to other geographical regions from time to time.

Investment policy:

■ In the best interest of the shareholders, and notably for defensive purposes, the Sub-Fund may also retain amounts, up to 100% of its net assets, in cash deposits, cash equivalents, treasury bills, money-market securities and ETFs as considered appropriate.

■ Each analyst of the portfolio manager will generally be responsible for researching between 15 and 20 companies at any given time. Ongoing research involves rigorous modelling of each company, line-by-line tracking of consensus assumptions and active regulatory and legislative research.

■ The Sub-Fund's investment thesis originates from industry research, company meetings, periodic company and event calendar review. The thesis is subsequently quantified by the analysts and firmed up by the Sub-Fund's senior investment professionals who will be engaged in meeting company executives and relevant local regulators. An investment idea is then typically generated when an internal view suggests a different outcome from market expectations.

■ Depending on financial market conditions, a particular focus can be placed on a single country.

■ For hedging purposes, the Sub-Fund may use all types of financial derivative instruments traded on a regulated market and/or over the counter (OTC), provided they are contracted with first class financial institutions specialized in this type of transactions. In particular, the Sub-Fund may take exposure through any financial derivative instrument, such as but not limited to forwards on currencies (including non-delivery forwards), options, swaps (including but not limited to contracts for difference and excluding total return swaps),

futures and financial indices, at all times within the limits specified in appendix II of the offering document.

■ The Sub-Fund may use financial derivative instruments for both hedging and/or investment purposes.

■ The Sub-Fund is actively managed without reference to a benchmark.

■ This financial product does not promote environmental or social characteristics and does not have as its objective a sustainable objective.

■ The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

■ Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 5 years.

Redemption and dealing: Investors may request redemption of shares monthly, last business day of each month in Luxembourg, no later than 12 p.m., Luxembourg time.

Distribution policy: Non-distributing shares: any income generated by the Sub-Fund is reinvested.

Intended retail investor

The sale of the shares is reserved to well-informed investors only as defined by article 2 of the 2007 Law. This Sub-Fund may be suitable for investors looking for a higher risk income strategy to complement an existing core portfolio, or looking to potentially enhance long-term returns and who are comfortable with the extra risks inherent in the Sub-Fund.

There is no minimum investment.

Term

This product was incorporated for an undefined period. The manufacturer may not terminate it unilaterally. It may be terminated by the board of directors unilaterally under the conditions set forth in the offering document of the Fund or by a decision of the general meeting of shareholders.

Practical information

Depositary: Quintet Private Bank (Europe) S.A., 43 Boulevard Royal, L-2449 Luxembourg.

Further information: The offering document of the Fund and annual reports are prepared for the entire Fund. Assets and liabilities of each sub-fund are segregated by law, meaning that the liabilities allocated to one sub-fund may not impact the other sub-fund. Shareholders are entitled to convert their shares in shares of another sub fund/class of the fund, as described under "Conversion of shares" section of the offering document.

Copies of the offering document and the last annual reports as well as other practical information such as the latest price for the shares may be obtained free of charge, in English, at the registered office of the Fund: 4,

rue Jean Monnet L-2180 Luxembourg, Grand Duchy of Luxembourg and on the following website: www.andbank.com/luxembourg/.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performances of the product over the last 10 years, by identifying, depending on the performance scenarios and as defined in the Key Information Document's EU regulation, all overlapping sub-intervals individually (i) equal in length to the recommended holding period which start or end in each month which are contained within that period of 10 years or (ii) equal or shorter in length to the recommended holding period, but equal to or longer than one year, which end at the end of that period of 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 31 May 2021 and 28 November 2025.

Moderate: this type of scenario occurred for an investment between 30 August 2019 and 30 August 2024.

Favourable: this type of scenario occurred for an investment between 26 February 2016 and 26 February 2021.

What happens if Andbank Asset Management Luxembourg is unable to pay out?

You are exposed to the risk Andbank Asset Management Luxembourg, might be unable to meet its obligations in connection with the product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in the product. A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed (i) in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario and (ii) € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	€ 375	€ 2,697
Annual cost impact*	3.7%	4.0%

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 9.8% before costs and 5.8% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	0.00% , we do not charge any entry fee. In case of conversion into another class or another sub-fund, no conversion fee is charged but you may be requested to bear the difference in subscription if higher.	up to € 0
Exit costs	0.00% , we do not charge an exit fee for this product, but the person selling you the product may do so.	up to € 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.78% per year, based on the value of your investment. This is an estimate based on actual costs over the last year.	€ 178
Transaction costs	0.45% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€ 45
Incidental costs taken under specific conditions		
Performance fees	1.52% This is an estimate, calculated on an annualised basis, based on the average over the previous 5 years. We charge 20% of the positive performance over the high water mark as increased by a hurdle rate of 6%. The actual amount will vary depending on how well your investment performs.	€ 152

How long should I hold it and can I take money out early?

Recommended Holding Period ("RHP"): 5 years

The RHP has been defined by taking into account the above investment policy and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty prior to the end of the RHP, or hold the investment longer. Investors may request redemption of shares no later than 12.00 p.m.(noon), Luxembourg time, on the business day preceding the next following valuation day. Redemption requests received after this time and date will take effect on the next following valuation day. Any cashing-in before the end of the RHP may have a negative consequence on your investment.

How can I complain?
