HALLEY SICAV - HALLEY MOMENTUM FLEXIBLE ALLOCATION MEDIUM - Class - B USD HEDGED (ISIN:LU1116336659)

a sub-fund of HALLEY SICAV

This fund is managed by Andbank Asset Management Luxembourg

Objectives and Investment Policy

- The Sub-Fund seeks to achieve capital growth over the long term with particular attention to limit the decline of the capital during unfavourable market conditions.
- The Sub-Fund will invest mainly in UCITS, other UCIs, ETFs and futures on indices gaining exposure to asset classes such as equities and equity related securities, investment grade and below investment grade debt securities, convertible bonds, money market instruments, real estate, commodities and hedge funds strategies.
- Exposure to UCITS, UCIs and ETFs gaining exposure to equity, commodity or real estate asset class may vary from 0% to a maximum of 65% of the net assets of the Sub-Fund.
- The Sub-Fund is actively managed without reference to a benchmark
- The Sub-Fund may also invest in financial derivative instruments such as futures and forwards for hedging and investment purposes. The Sub-Fund may use currency forwards and currency options in order to hedge against currency fluctuation risks associated with Classes denominated in a currency other than the reference currency of the Sub-Fund. The Sub-Fund's global exposure to these derivatives will not exceed 200% of the net asset value of the Sub-Fund.
- Shareholders may redeem shares on demand, on a daily basis.
- The portfolio will be managed following a Momentum quantitative approach. This methodology intends to select investments having a strong Momentum ranking. This ranking is a result of a progressive process developed by the Management Company, based on performance and risk measures. The portfolio will be rebalanced on a regular basis according to the model's output.
- Non-distribution shares: any income generated by the Sub-Fund is reinvested.
- Please note that transaction costs may have material impact on performance.
- *Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 to 7 years.*

Risk and Reward Profile

- Historical data used may not be a reliable indication of the future risk profile of the sub-fund.
- This category is not guaranteed to remain unchanged and may shift over time.
- The lowest class does not mean that the investment is risk free.
- This fund was categorised in risk class 5 because, in accordance with the investment policy, the value of the investments may fluctuate somewhat sharply. Consequently, both the expected return and the potential risk of loss may be above average. This indicator is based on benchmarks historical performance data based on the last 5 years volatility and places the sub-fund in this category.
- The sub-fund is in a medium risk category because the sub-fund may be subject to medium variations and consequently the risk of loss and the opportunity of gain may be moderate.

The sub-fund is subject to the following risks:

- **Credit risk:** the Fund invests in securities which are exposed to the risk that the issuer will be unable to meet its repayment obligations. The credit rating and risks associated with such securities can change over time and therefore affect the value of the investments.
- **Liquidity risk:** Securities may become less liquid during extreme market conditions and it may be difficult for unitholders to get redemption proceeds in a timely manner.
- **Counterparty risk:** Risk that the counterparty to mutually agreed contracts does not meet its obligations.
- **Operational risk:** Risk of material loss resulting from human error, technical faults, inappropriate procedures or controlling.
- **Use of derivatives:** The sub-fund invests in derivatives for hedging and other investment purposes, increasing or reducing exposure to underlying assets.
- **Currency risk:** Investments in securities denominated in currencies other than the Sub-fund's Base Currency may be subject to adverse fluctuation in currency exchange rates.
- **Duplication of certain fees and expenses:** Where investments are made in other funds, this might result in duplication of certain fees and expenses for investors. Investors are also subject to potential risks associated with such funds.
- **Market risk:** The value of assets in the Portfolio is typically dictated by a number of factors, including the confidence levels of the market in which they are traded.
