HALLEY MOMENTUM FLEXIBLE ALLOCATION MEDIUM - Class I EUR (ISIN: LU1116336816)

a sub-fund of HALLEY SICAV

Management Company: Andbank Asset Management Luxembourg

Objectives and investment policy

- The sub-fund seeks to achieve capital growth over the long term with particular attention to limit the decline of the capital during unfavourable market conditions.
- The sub-fund will invest mainly in UCITS, other UCIs, ETFs and futures on indices gaining exposure to asset classes such as equities and equity related securities, investment grade and below investment grade debt securities, convertible bonds, money market instruments, real estate, commodities and hedge funds strategies.
- Exposure to investments in equity securities only or gaining exposure to commodities or real estate only may vary from 0% to a maximum of 80%.
- The portfolio will be managed following a Momentum quantitative approach. This methodology intends to select investments having a strong Momentum ranking. This ranking is a result of a progressive process developed by the Management Company, based on performance and risk measures. The portfolio will be rebalanced on a regular basis according to the model's output.
- The sub-fund may also invest in financial derivative instruments such as futures and forwards for hedging and investment purposes. The sub-fund may use currency forwards and currency options in order to hedge against currency fluctuation risks associated with Classes denominated in a currency other than the reference currency of the sub-fund. The sub-fund's global exposure to these derivatives will not exceed 200% of the net asset value of the sub-fund.
- *Recommendation: this sub-fund may not be appropriate for investors who plan to withdraw their money within 5 - 7 years.*
- Shareholders may redeem shares on demand, on a daily basis.
- Non-distribution shares: any income generated by the sub-fund is reinvested.
- Please note that transaction costs may have material impact on performance.

Risk and reward profile

- Historical data used may not be a reliable indication of the future risk profile of the sub-fund.
- This category is not guaranteed to remain unchanged and may shift over time, depending on market conditions, or opportunities.
- The lowest category does not mean a risk-free investment.
- This indicator is based on benchmarks historical performance data based on the last 5 years volatility and places the sub-fund in this category. This fund was categorised in risk class 4 because, in accordance with the investment policy, the value of the investments may fluctuate moderately. Consequently, both the expected return and the potential risk of loss may be average.
- The sub-fund is in a medium risk category because the sub-fund may be subject to medium variations and consequently the risk of loss and the opportunity of gain may be moderate.

The sub-fund is subject to the following risks:

- **Fund of funds risks:** where investments are made in other funds, this might result in duplication of certain fees and expenses for investors. Investors are also subject to potential risks associated with such funds.
- **Use of derivatives:** derivatives are used to contribute to obtain, increase or reduce exposure to underlying assets.
