

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

RAINBOW FUND - Rainbow Flexible Allocation (Accumulation) (ISIN:LU1406961968)

a sub-fund of RAINBOW FUND

This fund is managed by Andbank Asset Management Luxembourg

Objectives and Investment Policy

- The compartment seeks to achieve capital growth over the long term investing in a diversified global portfolio.
- The compartment will invest in different eligible types of asset classes, such as, but not limited to, equities, bonds, UCITS or UCIs and money market instruments. The allocation of the portfolio may vary according to the portfolio manager's expectations.
- The compartment will invest especially in the OECD countries; anyway the compartment could take exposure to the emerging markets funds for a residual portion of its assets.
- The compartment will invest at least a minimum portion of its assets in equities of large and medium companies. The investments can be done directly or indirectly, through financial derivative instruments or other UCITS/UCIs.
- The compartment will invest in fixed income instruments without rating restrictions. The average duration will be dynamically managed by the portfolio manager and may vary depending on market conditions, even if the strategy will be focused in short term bonds. The investments can be done directly or indirectly, through financial derivative instruments or other UCITS/UCIs.
- The Sub-Fund is actively managed without reference to a benchmark
- Investors may request redemptions of Units bi-monthly, in line with the relevant sections of the Fund's prospectus.
- The compartment may invest up to 20% of its net assets in structured securities such as asset backed securities ("ABS"), mortgage backed securities or collateralized obligations with a pay-off linked to the relevant markets rather than actually investing in the markets.
- The compartment may use financial derivative instruments for both hedging and/or investment purposes. The types of derivatives may include, but are not limited to, single stock and equity index futures and options, currency futures and forwards, OTC derivatives, single stock CFDs, basket CFDs and index CFDs.
- Income generated by the compartment is reinvested and included in the value of Units.
- Please note that transaction costs may have material impact on performance.

Risk and Reward Profile

- Historical data used may not be a reliable indication of the future risk profile of the sub-fund.
- This category is not guaranteed to remain unchanged and may shift over time.
- The lowest class does not mean that the investment is risk free.
- This fund was categorised in risk class 5 because, in accordance with the investment policy, the value of the investments may fluctuate somewhat sharply. Consequently, both the expected return and the potential risk of loss may be above average. This indicator represents the annual historical volatility of the compartment over a 5-year period.

The sub-fund is subject to the following risks:

- **Credit risk:** the Fund invests in securities which are exposed to the risk that the issuer will be unable to meet its repayment obligations. The credit rating and risks associated with such securities can change over time and therefore affect the value of the investments.
- **Liquidity risk:** Securities may become less liquid during extreme market conditions and it may be difficult for unitholders to get redemption proceeds in a timely manner.
- **Counterparty risk:** Risk that the counterparty to mutually agreed contracts does not meet its obligations.
- **Operational risk:** Risk of material loss resulting from human error, technical faults, inappropriate procedures or controlling.
- **Use of derivatives:** The sub-fund invests in derivatives for hedging and other investment purposes, increasing or reducing exposure to underlying assets.
- **Currency risk:** Investments in securities denominated in currencies other than the Sub-fund's Base Currency may be subject to adverse fluctuation in currency exchange rates.
- **Duplication of certain fees and expenses:** Where investments are made in other funds, this might result in duplication of certain fees and expenses for investors. Investors are also subject to potential risks associated with such funds.
- **Market risk:** The value of assets in the Portfolio is typically dictated by a number of factors, including the confidence levels of the market in which they are traded.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charges	None
Exit Charges	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing Charges	0,25%
Charges taken from the fund under certain specific conditions	
Performance fee	None

- The **entry and exit charges** shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.
- The **ongoing charges** figure is based on expenses for the year ending 31 December 2019. This figure may vary from year to year. It excludes: outperformance charges and intermediation charges, with the exception of entry and exit charges paid by the compartment when it buys or sells shares of another fund.
- **For more information about charges, please refer to the fund's prospectus available at the registered office of the fund and on the following website:**
<https://www.andbank.com/luxembourg/>
