Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

ATHENEE FCP - Birdie - Class - A
(ISIN:LU1628858711)
a sub-fund of ATHENEE FCP
This fund is managed by Andbank Asset Management Luxembourg

Objectives and Investment Policy

- The investment objective of the Sub-Fund is to seek to generate the highest possible return to the investors through a flexible and active management of the portfolio.
- The Sub-Fund aims at capital appreciation over the long-term while controlling the risk related to the assets classes by investing mainly in a selected portfolio of international assets, such as but not limited to equity and fixed income instruments of all types and money market instruments.
- The Sub-Fund will invest in any securities without any constraint in term of rating, duration, market capitalization or geographical allocation. However, the Sub-Fund will invest primarily in the OECD countries but it may additionally invest in emerging markets.
- The investments can be done directly or indirectly, through financial derivative instruments or other UCITS/UCIs (including ETFs).
- The Sub-Fund will invest generally in equities and equity-linked instruments (including but not limited to ordinary or preferred shares, ETP’s, closed-ended real estate investment trusts (REITs), and equity-related derivatives). Moreover, depending on the Investment Manager’s expectations, the proportion in equity and equity-linked instruments could be substantially decreased, but will not fall below 10% of its assets.
- The Sub-Fund is actively managed without reference to a benchmark.

The sub-fund is subject to the following risks:

- **Credit risk:** the Fund invests in securities which are exposed to the risk that the issuer will be unable to meet its repayment obligations. The credit rating and risks associated with such securities can change over time and therefore affect the value of the investments.
- **Liquidity risk:** Securities may become less liquid during extreme market conditions and it may be difficult for unitholders to get redemption proceeds in a timely manner.
- **Counterparty risk:** Risk that the counterparty to mutually agreed contracts does not meet its obligations.
- **Operational risk:** Risk of material loss resulting from human error, technical faults, inappropriate procedures or controlling.
- **Use of derivatives:** The sub-fund invests in derivatives for hedging purposes.
- **Currency risk:** Investments in securities denominated in currencies other than the Sub-fund’s Base Currency may be subject to adverse fluctuation in currency exchange rates.
- **Duplication of certain fees and expenses:** Where investments are made in other funds, this might result in duplication of certain fees and expenses for investors. Investors are also subject to potential risks associated with such funds.
- **Market risk:** The value of assets in the Portfolio is typically dictated by a number of factors, including the confidence levels of the market in which they are traded.

Risk and Reward Profile

<table>

</tbody>
</table>

The sub-fund may invest exclusively its net assets in cash and cash equivalents, term deposits, debt securities and money market instruments dealt in on a Regulated Market and whose maturity does not exceed 12 months, monetary UCITS and UCIs.

For hedging and for investment purpose, the Sub-Fund may use financial derivative instruments.

The remaining part will be invested in fixed income-related instruments (including but not limited to fixed or floating-rate, zero-coupon and convertible securities) and money market instruments issued by corporate and sovereign issuers. The investment manager does not intend to invest in securities such as Asset Backed Securities (ABS), mortgage backed securities (MBS) or distressed securities.

Non-distributing units: any income generated by the Sub-Fund is reinvested.
Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
