Accurate as of: 1 March 2024

What is this product?

Type

- This product is a class of units of the Sub-Fund and denominated in EUR. The Fund is an open-ended common fund with variable capital (*Fonds Commun de Placement* or "FCP") and qualifies as an Undertaking for Collective Investments in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 related to undertakings for collective investments ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Investment objective:

- The investment objective of the Sub-Fund is to seek to generate the highest possible return to the investors through a flexible and active management of the portfolio.
- The Sub-Fund aims at capital appreciation over the long-term while controlling the risk related to the assets classes by investing mainly in a selected portfolio of international assets, such as but not limited to equity and fixed income instruments of all types and money market instruments.

Investment policy:

- The Sub-Fund will invest in any securities without any constraint in term of rating, duration, market capitalization or geographical allocation. However, the Sub-Fund will invest primarily in the OECD countries but it may additionally invest in emerging markets.
- The investments can be done directly or indirectly, through financial derivative instruments or other UCITS/UCIs (including ETFs).
- The Sub-Fund will invest generally in equities and equity-linked instruments (including but not limited to ordinary or preferred shares, ETP's, closed-ended real estate investment trusts (REITs), and equity-related derivatives). Moreover, depending on the Investment Manager's expectations, the proportion in equity and equity-linked instruments could be substantially decreased, but will not fall below 10% of its assets.
- The Sub-Fund may hold up to 20% of its net assets, in ancillary liquid assets which consist of bank deposits at sight in accordance with the provisions of Article 41(2) of the Law of 17 December 2010. Notwithstanding the above provisions; the above mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavorable market conditions, circumstances such as the September 11 attacks or the bankruptcy of Lehman Brothers in 2008.
- For hedging and for investment purpose, the Sub-Fund may use financial derivative instruments.
- The remaining part will be invested in fixed income-related instruments (including but not limited to fixed or floating-rate, zero coupon and convertible securities) and money market instruments issued by corporate and sovereign issuers. The investment manager does not intend to invest in securities such as Asset Backed

Securities (ABS), mortgage backed securities (MBS) or distressed securities.

- The Sub-Fund is actively managed without reference to a benchmark.
- This financial product does not promote environmental or social characteristics and does not have as its objective a sustainable objective.
- The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.
- Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 5 years.

Redemption and dealing: Unitholders may subscribe or redeem units every two weeks on each Monday. Subscription or redemption requests will be processed using the applicable net asset value of the same day of the request date. However, orders placed after 5:35 p.m. or on a non-business day will be processed together with those placed on the next business day. Marketers may set cut-off times prior to the one indicated.

Distribution policy: Non-distributing units: any income generated by the Sub-Fund is reinvested.

Intended Institutional Investor

This unit class is available for institutional investors.

There is no minimum investment.

Term

The Sub-Fund and class of units were incorporated for an undefined period. The manufacturer and the depositary may terminate this product unilaterally under specific circumstances as described in the prospectus. Unitholders may not request dissolution or liquidation of the Fund.

Practical information

Depositary: Quintet Private Bank (Europe) S.A., 43 Boulevard Royal, L-2449 Luxembourg.

Further information: The prospectus of the Fund and periodic reports are prepared for the entire Fund. Assets and liabilities of each sub-fund are segregated by law, meaning that the liabilities allocated to one sub-fund may not impact the other sub-fund. Unitholders are entitled to convert their units in units of another sub-fund/units of the Fund, as described under "Conversion" section of the prospectus. Copies of the prospectus and of the last annual and semi-annual reports of the entire Fund as well as other practical information such as the latest price for the units may be obtained free of charge, in English, at the registered office of the management company: 4, rue Jean Monnet L-2180 Luxembourg, Grand Duchy of Luxembourg and on the following website: <https://www.andbank.com/luxembourg/>.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performances of the product over the last 10 years, by identifying, depending on the performance scenarios and as defined in the Key Information Document's EU regulation, all overlapping sub-intervals individually (i) equal in length to the recommended holding period which start or end in each month which are contained within that period of 10 years or (ii) equal or shorter in length to the recommended holding period, but equal to or longer than one year, which end at the end of that period of 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 26 November 2021 and 22 December 2023.

Moderate: this type of scenario occurred for an investment between 29 April 2017 and 29 April 2022.

Favourable: this type of scenario occurred for an investment between 19 February 2016 and 19 February 2021.

What happens if Andbank Asset Management Luxembourg is unable to pay out?

You are exposed to the risk Andbank Asset Management Luxembourg, might be unable to meet its obligations in connection with the product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in the product. A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed (i) in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario and (ii) € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	€ 161	€ 971
Annual cost impact*	1.6%	1.7%

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 4.6% before costs and 3.0% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	0.00% , we do not charge any entry fee. In case of conversion into another class or another sub-fund, no conversion fee is charged but you may be requested to bear the difference in subscription if higher.	up to € 0
Exit costs	0.00% , we do not charge an exit fee for this product, but the person selling you the product may do so.	up to € 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.58% per year, based on the value of your investment. This is an estimate based on actual costs over the last year.	€ 158
Transaction costs	0.02% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€ 2
Incidental costs taken under specific conditions		
Performance fees	0.00% . There is no performance fee for this product.	€ 0

How long should I hold it and can I take money out early?

Recommended Holding Period ("RHP"): 5 years

The RHP has been defined by taking into account the above investment policy and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty incurred for disinvestment prior to the end of the recommended holding period, or hold the investment longer. Unitholders may redeem their units on any valuation day provided that the request for redemption is received in Luxembourg prior to 5:35 p.m., Luxembourg time, on the day immediately preceding the applicable valuation day. Any cashing-in before the end of the recommended holding period may have a negative consequence on your investment. Marketers may set cut-off times prior to the indicated cut-off time.

In order to prevent dilution effect, the Management Company has the power to charge a "dilution levy" on the subscription, redemption and/or conversion of units. If charged, the dilution levy will be paid into the Sub-Fund and will not exceed 2% of the relevant net asset value per unit.

How can I complain?
