What is this product?

Type

- This product is a class of shares of the Sub-Fund and denominated in USD. The Fund is an open-ended investment company with variable capital ("SICAV") and qualifies as an Undertaking for Collective Investments in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 related to undertakings for collective investments ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Investment objective:

- The objective of the Sub-Fund is to generate high levels of income together with capital enhancement through investments in primarily U.S.-listed non-investment grade corporate bonds and floating rate notes issued by small to mid-cap companies.

Investment policy:

- The investment strategy of the Sub-Fund is to invest mainly in high yield bond securities primarily in the United States. The Sub-Fund will seek to be invested in bonds and related securities issued by small to mid-sized American corporations.
- The Sub-Fund seeks to maximise risk-adjusted returns in the portfolio by focussing on the B and CCC rated credits issued by small and mid-sized corporations typically overlooked by larger asset managers while including select BB names. The Sub-Fund will seek out securities that offer a premium level of yield and the prospect for capital appreciation whilst offering credit metrics (leverage and interest cover) which are similar or superior to larger, lower yielding equivalents.
- Analysis of the bonds for the Sub-Fund will be undertaken on the basis that the bonds may be held to maturity, although the bonds may be sold prior to maturity. The Sub-Fund will invest in a diversified portfolio of medium to long term investments. Particular care will be taken to tilt the Sub-Fund towards particular duration or redemption periods which offer attractive levels of yield and/or total return at any stage of the market cycle.
- The Sub-Fund may also invest in units of UCITS including ETFs, that invest in high yield bonds.
- The Sub-Fund may use financial derivative instruments for efficient portfolio management purposes, for investment/speculative purposes, and for hedging purposes as long as it remains in the best interest of the shareholders.
- The Sub-Fund may hold on an ancillary basis up to 20% of its assets in bank deposits at sight in accordance with the provisions of Article 41(2) of the Law of 17 December 2010. Notwithstanding the above provision, the above mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors.

- The Sub-Fund shall not invest more than 10% of its assets in units of UCITS or other UCIs, including ETFs.
- The Sub-Fund is actively managed without reference to a benchmark.
- This financial product does not promote environmental or social characteristics and does not have as its objective a sustainable objective.
- The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.
- Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 5 years.

Redemption and dealing: Shareholders may redeem shares on demand, on a daily basis, which is a bank business day in Luxembourg.

Distribution policy: Non-distributing shares: any income generated by the Sub-Fund is reinvested.

Intended Founder Investor

This product is intended for founder investors only. The Sub-Fund may be suitable for investors looking for a higher risk income strategy to complement an existing core portfolio, or looking to potentially enhance long-term returns and who are comfortable with the extra risks inherent in the Sub-Fund. The Sub-Fund may be suitable for investors with at least a 5-year investment horizon.

There is no minimum investment.

Term

The Sub-Fund and class of shares were incorporated for an undefined period. The manufacturer may not terminate it unilaterally. The board of directors or an extraordinary general meeting of shareholders may terminate this product under the conditions set forth in the prospectus.

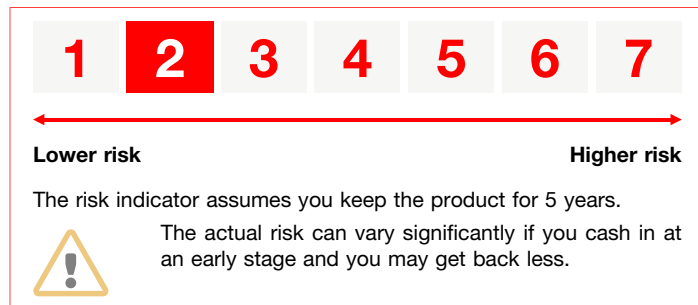

Practical information

Depository: Citibank Europe plc, Luxembourg Branch, 31 zone d'activités Bourmicht, L-8070 Bertrange, Grand Duchy of Luxembourg.

Further information: The prospectus of the Fund and periodic reports are prepared for the entire Fund. Assets and liabilities of each sub-fund are segregated by law, meaning that the liabilities allocated to one sub-fund may not impact the other sub-fund. Shareholders are entitled to convert their shares in shares of another sub-fund/shares of the Fund, as described under "Conversion of Shares" section of the prospectus. Copies of the prospectus and of the last annual and semi-annual reports as well as other practical information such as the latest price for the shares may be obtained free of charge, in English, at the registered office of the Fund: 4, rue Jean Monnet L-2180 Luxembourg, Grand Duchy of Luxembourg and on the following website: www.andbank.com/luxembourg/.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performances of the product over the last 10 years, by identifying, depending on the performance scenarios and as defined in the Key Information Document's EU regulation, all overlapping sub-intervals individually (i) equal in length to the recommended holding period which start or end in each month which are contained within that period of 10 years or (ii) equal or shorter in length to the recommended holding period, but equal to or longer than one year, which end at the end of that period of 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 30 April 2015 and 30 April 2020.

Moderate: this type of scenario occurred for an investment between 31 January 2017 and 31 January 2022.

Favourable: this type of scenario occurred for an investment between 30 April 2020 and 30 April 2025.

Recommended holding period		5 years

What happens if Andbank Asset Management Luxembourg is unable to pay out?

You are exposed to the risk Andbank Asset Management Luxembourg, might be unable to meet its obligations in connection with the product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in the product. A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed (i) in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario and (ii) \$ 10,000 is invested.

Example Investment \$ 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	\$ 279	\$ 1,720
Annual cost impact*	2.8%	2.9%

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 5.7% before costs and 2.8% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	0.00%, we do not charge any entry fee. In case of conversion into another class or another sub-fund, no conversion fee is charged but you may be requested to bear the difference in subscription if higher.	up to \$ 0
Exit costs	0.00%, we do not charge an exit fee for this product, but the person selling you the product may do so.	up to \$ 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.05% per year, based on the value of your investment. This is an estimate based on actual costs over the last year.	\$ 205
Transaction costs	0.73% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	\$ 73
Incidental costs taken under specific conditions		
Performance fees	0.00%. There is no performance fee for this product.	\$ 0

How long should I hold it and can I take money out early?

Recommended Holding Period ("RHP"): 5 years

The RHP has been defined by taking into account the above investment policy and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty prior to the end of the RHP, or hold the investment longer. Investors may request redemption of shares no later than 5.00 p.m., Luxembourg time, on the business day preceding the valuation day. Subscription forms received after this time and date will take effect on the next following valuation day. Any cashing-in before the end of the RHP may have a negative consequence on your investment.

In order to prevent dilution effect, the board of directors has the power to charge a "dilution levy" on the subscription, redemption and/or conversion of shares. If charged, the dilution levy will be paid into the Sub-Fund and will not exceed 2% of the relevant net asset value per share.
