What is this product?

Type

- This product is a class of units of the Sub-Fund and denominated in EUR. The Fund is an open-ended common fund with variable capital (*Fonds Commun de Placement* or "FCP") and qualifies as an Undertaking for Collective Investments in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 related to undertakings for collective investments ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Investment objective:

- The investment strategy of the Sub-Fund is to invest in a broad range of asset classes such as but not limited to fixed income, money market instruments, equities, including ETFs and other UCIs and cash and cash equivalents

Investment policy:

- Generally the Sub-Fund will invest a part of its assets in fixed income and it may also invest in equities and equity-related securities.
- The Sub-Fund will invest primarily in the OECD countries but it may however take exposure to the emerging markets funds for a residual portion of its assets.
- The Sub-Fund will invest in any securities without any constraint in term of rating, duration, market capitalization or geographical allocation. The investments can be done directly or indirectly, through financial derivative instruments or other UCITS/UCIs.
- The Sub-Fund may invest in contingent convertible bonds ("CoCos") up to 10% of its assets.
- The Sub-Fund may use financial derivative instruments for both hedging and/or investment purposes.
- The Sub-Fund may hold on an ancillary basis up to 20% of its assets in bank deposits at sight, such as cash held in current accounts with bank accessible at any time, in accordance with the provisions of article 41(2) of the Investment Fund Law. Notwithstanding the above provision, the above mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavorable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors.
- The Sub-Fund is actively managed without reference to a benchmark.
- This financial product does not promote environmental or social characteristics and does not have as its objective a sustainable objective.

- The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.
- Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 5 years.

How long should I hold it and can I take money out early?

Recommended Holding Period ("RHP"): 5 years

The RHP has been defined by taking into account the above investment policy and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty incurred for disinvestment prior to the end of the recommended holding period, or hold the investment longer. Unitholders may redeem their units on any Valuation Day provided that the request for redemption is received in Luxembourg prior to 3:00 p.m., Luxembourg time, on the day immediately preceding the applicable Valuation Day. Any cashing-in before the end of the recommended holding period may have a negative consequence on your investment. Marketers may set cut-off times prior to the indicated cut-off time.

In order to prevent dilution effect, the Management Company has the power to charge a "dilution levy" on the subscription, redemption and/or conversion of units. If charged, the dilution levy will be paid into the Sub-Fund and will not exceed 2% of the relevant net asset value per unit.
