## What is this product?

### Type

■ This product is a class of shares of the Sub-Fund and denominated in EUR. The Fund is an open-ended investment company with variable capital ("SICAV") and qualifies as an Undertaking for Collective Investments in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 related to undertakings for collective investments ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.

■ As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

### Investment objective:

■ The investment objective of the Sub-Fund is to achieve long term capital growth and aims to generate excess returns against the broad Japanese market by mainly investing in companies listed, domiciled and operating in Japan.

### Investment policy:

■ The Sub-Fund will focus on special situation opportunities within the Japanese market and aims to have a high active share against the broad market.

■ The Sub-Fund will focus on special situations in the market by investing in companies which have strong catalysts to add value to the portfolio, for example as a result of parent/subsidiary consolidation, corporate merger and acquisition activity or earnings growth that is superior to the broader market.

■ The Sub-Fund seeks to achieve its objective through a flexible approach by investing in equities and equity-linked instruments (including but not limited to ordinary or preferred shares, ETF's, REIT's, warrants, convertible bonds, equity derivatives and equity index derivatives).

■ The Sub-fund will mainly invest in companies listed, domiciled and operating in Japan. It may invest up to 20% in securities issued by companies with exposure to Japan that are listed on other eligible stock exchanges. The portfolio will hold positions regarded by the Investment Manager as special situations. This refers to investments considered to be high quality, under-researched companies which may benefit from corporate activity or consolidation, for example arising from parent/subsidiary organizational changes.

■ The Sub-Fund will invest in small, medium and large capitalisation companies with no currency or location restrictions.

■ The Sub-Fund may be invested in bonds (including but not limited to fixed or floating-rate, zero-coupon bonds and inflation linked) and money market instruments issued by corporate and sovereign issuers. The Sub-Fund will invest in investment grade bonds rated by one or more of the main agencies (Moody's, Standard & Poor & Fitch) or, in its absence, by a professional recognized rating agency registered and/or regulated by ESMA. The Sub-Fund will not invest in asset backed securities or in mortgage backed securities.

■ The Sub-Fund will not invest more than 10% of its assets in UCITS or other UCIs.

■ The Sub-Fund may hold on an ancillary basis up to 20% of its assets in cash and cash equivalents such as sight bank deposits, in accordance with the provisions of Article 41(2) of the Law of 17 December 2010. Notwithstanding the above provision, the above mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors, for instance in highly serious circumstances such as the September 11 attacks or the bankruptcy of Lehman Brothers in 2008.

■ The Sub-Fund may use financial derivative instruments both for hedging and investment purposes.

■ The Sub-Fund is actively managed without reference to a benchmark.

■ This financial product promotes environmental and social characteristics and qualifies as product in accordance with Article 8 (1) of Regulation (EU) 2019/2088. This fund does not have as its objective a sustainable investment.

■ Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 5 years.

## How long should I hold it and can I take money out early?

### Recommended Holding Period ("RHP"): 5 years

The RHP has been defined by taking into account the above investment policy and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty prior to the end of the RHP, or hold the investment longer. Investors may request redemption of shares no later than 12.00 p.m. (noon), Luxembourg time, on the business day preceding that valuation day. Redemption requests received after this time and date will take effect on the next following valuation day. Any cashing-in before the end of the RHP may have a negative consequence on your investment.

In order to prevent dilution effect, the board of directors has the power to charge a "dilution levy" on the subscription, redemption and/or conversion of shares. If charged, the dilution levy will be paid into the Sub-Fund.
