What is this product?

Type

- This product is a class of units of the Sub-Fund and denominated in EUR. The Fund is an open-ended common fund with variable capital (*Fonds Commun de Placement* or "FCP") and qualifies as an Undertaking for Collective Investments in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 related to undertakings for collective investments ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Investment objective:

- The Sub-Fund aims to achieve long-term capital appreciation by investing in a mixed and global diversified portfolio.

Investment policy:

- For achieving its objective, the Sub-Fund will structure the strategy through three complementary analyses that support objective of capital appreciation through a stable and de-correlated portfolio: global investment sectors or themes that fit the best with the macroeconomic expectations of the investment manager, markets or indices whose design and composition better capitalize the investment scenario and growth strategy focused on investing in equity securities and income generation by investing in debt instrument.
- The Sub-Fund intends to achieve its investment objective by investing directly or indirectly through underlying UCITS/UCIs in OECD countries, holding between 40% to 80% of its assets in equity and equity-linked securities (including but not limited to ordinary, preferred shares and ADR/GDRs), and the remaining part of its assets in debt instruments (including but not limited to fixed or floating-rate, zero-coupon, convertible bonds, contingent convertible bonds ("CoCos")) and money market instruments, issued by corporate and sovereign issuers with no predetermination as to the selection of the companies by market capitalization.
- The Sub-Fund will not invest more than 20% of its assets in securities rated by one or more of the main rating agencies (Moody's, Standard & Poors & Fitch), or in its absence, by a professional recognized rating agency registered and/or regulated by ESMA, as high yield securities.
- The Sub-Fund will not invest more than 10% of its assets in non-rated securities.
- The Sub-Fund will not invest more than 10% of its assets in CoCos.
- The Sub-Fund may invest in emerging markets up to 50% of its assets, provided that these investments are well diversified and there is no concentration in a single emerging country of more than 20% of the assets.
- The Sub-Fund may indirectly invest up to 10% of its assets through ADRs/GDRs, in companies domiciled in, or with main activities within the Peoples Republic of China, Hong Kong and Macao.
- The Sub-Fund may use financial derivative instruments for hedging purposes. The types of derivatives may include, but are not limited

to, single stock and equity index futures comprised by a basket of securities listed within a specific stock market such as but not limited to Standard & Poor's 500 Index, Dow Jones Industrial Average Index or the DAX Stock Index including its respective E-Mini's (E-Mini's are electronically traded futures contracts which are a fraction of the value of corresponding standard futures contracts), options, currency futures and forwards.

- The Sub-Fund is actively managed without reference to a benchmark.
- The Sub-Fund may invest hold on an ancillary basis up to 20% of its assets in bank deposits at sight, such as cash held in current accounts with bank accessible at any time, in accordance with the provisions of article 41(2) of the Law of 17 December 2010.
- Notwithstanding the above provision, the above mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavorable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors, for instance in highly serious circumstances such as the September 11 attacks or the bankruptcy of Lehman Brothers in 2008.
- This financial product does not promote environmental or social characteristics and does not have as its objective a sustainable objective.
- The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.
- Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 5 years.

Redemption and dealing: Investors may request redemptions of units on a daily basis, which is a bank business day in Luxembourg.

Distribution policy: Income generated by the Sub-Fund is reinvested and included in the value of units.

Intended Retail/Institutional Investor

There is no minimum investment.

This unit class is available for retail and institutional investors.

Term

The Sub-Fund and class of units were incorporated for an undefined period. The manufacturer and the depositary may terminate this product unilaterally under specific circumstances as describe in the prospectus. Unitholders may not request dissolution or liquidation of the Fund.

Practical information

Depositary: Quintet Private Bank (Europe) S.A., 43 Boulevard Royal, L-2449 Luxembourg.

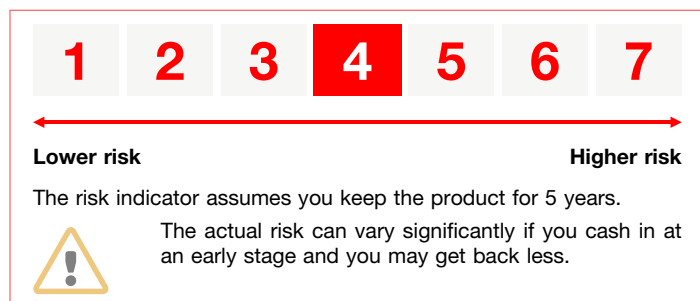

Further information: The prospectus of the Fund and periodic reports are prepared for the entire Fund. Assets and liabilities of each sub-fund are segregated by law, meaning that the liabilities allocated to one sub-fund may not impact the other sub-fund. Unitholders are entitled to

convert their units in units of another sub-fund/units of the Fund, as described under "Conversion of Units" section of the prospectus. Copies of the prospectus and of the last annual and semi-annual reports as well as other practical information such as the latest price for the units may be obtained free of charge, in English, at the registered office of the Fund: 4, rue Jean Monnet L-2180 Luxembourg, Grand

Duchy of Luxembourg and on the following website: www.andbank.com/luxembourg/.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performances of the product over the last 10 years, by identifying, depending on the performance scenarios and as defined in the Key Information Document's EU regulation, all overlapping sub-intervals individually (i) equal in length to the recommended holding period which start or end in each month which are contained within that period of 10 years or (ii) equal or shorter in length to the recommended holding period, but equal to or longer than one year, which end at the end of that period of 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 31 December 2021 and 29 December 2023.

Moderate: this type of scenario occurred for an investment between 30 April 2014 and 30 April 2019.

Favourable: this type of scenario occurred for an investment between 29 October 2016 and 29 October 2021.

What happens if Andbank Asset Management Luxembourg is unable to pay out?

You are exposed to the risk Andbank Asset Management Luxembourg, might be unable to meet its obligations in connection with the product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in the product. A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed (i) in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario and (ii) € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	€ 274	€ 1,641
Annual cost impact*	2.7%	2.8%

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 5.0% before costs and 2.2% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year

Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.42% per year, based on the value of your investment. This is an estimate based on actual costs over the last year.	€ 242
Transaction costs	0.32% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€ 32
Incidental costs taken under specific conditions		
Performance fees	0.00% . This is an estimate, calculated on an annualised basis, based on the average over the previous 5 years. We charge 5% of the positive performance over the high water mark. The actual amount will vary depending on how well your investment performs.	€ 0

How long should I hold it and can I take money out early?

Recommended Holding Period ("RHP"): 5 years

The RHP has been defined by taking into account the above investment policy and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty incurred for disinvestment prior to the end of the recommended holding period, or hold the investment longer. Unitholders may redeem their units on any valuation day provided that the request for redemption is received in Luxembourg prior to 2 p.m., Luxembourg time, on the day immediately preceding the applicable valuation day. Any cashing-in before the end of the recommended holding period may have a negative consequence on your investment.
