What is this product?

Type

■ This product is a class of shares of the Sub-Fund and denominated in EUR. The Fund is an open-ended investment company with variable capital ("SICAV") and qualifies as an Undertaking for Collective Investments in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 related to undertakings for collective investments ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.

■ As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Investment objective:

■ The objective is to provide medium term capital appreciation from a diversified portfolio of private and public fixed income and fixed income related instruments.

■ This objective is associated with an extra-financial approach in compliance with the provisions of Article 8 of SFDR, integrating the consideration of sustainability risk and ESG criteria.

Investment policy:

■ The Sub-Fund is a fixed income fund which will predominantly invest in bonds. Investments in fixed income instruments will be without any constraint in terms of sector or market capitalization and will include but are not limited to rated investment grade and non investment grade as well as fixed and floating rate securities, ABS/MBS, treasury inflation protected securities (TIPS), convertible bonds, contingent convertible bonds (CoCos) and money market instruments.

■ The Sub-Fund will primarily invest in OECD countries. The exposure to emerging markets will not represent more than 15% of the assets of the Sub-Fund, including up to 10% in debt securities denominated in non-Renminbi currency, issued by companies domiciled in or with main activities within the People's Republic of China.

■ The Sub-Fund will invest mainly in securities rated as investment grade. The exposure to non investment grade securities will not represent more than 25% of the assets of the Sub-Fund, including the exposure to non rated securities, that will not represent more than 5% of the assets of the Sub-Fund.

■ The Sub-Fund will not invest in distressed and defaulted securities. Should a security be downgraded to distressed or default, the Sub-Fund will sell them, unless the valuation about the recovery rate justifies otherwise, in which case the Sub-Fund will hold these securities in portfolio, in a proportion limited to a maximum of 10%.

■ The exposure to mortgage-backed securities ("MBS") and asset-backed securities ("ABS") combined will not represent more than 10% of the assets of the Sub-Fund.

■ The exposure to convertible bonds will not represent more than 10% of the assets of the Sub-Fund, respectively the exposure to contingent convertibles ("CoCos") will not exceed 10% of the assets of the Sub-Fund.

■ The average duration will typically range from 0 years to 10 years, and may even be negative from time to time.

■ The exposure in other UCITS and/or other UCIs will not represent more than 10% of the assets of the Sub-Fund.

■ The Sub-Fund has the ability to use financial derivative instruments traded on a regulated market and/or over the counter (OTC) for investment and/or hedging purposes, and provided they are contracted with first class financial institutions specialized in this type of transactions. The types of derivatives will include, but are not limited to futures, options and forwards on any eligible underlying, such as currencies, interest rates, transferable securities, a diversified basket of transferable securities, etc.

■ The Sub-Fund may invest on an ancillary basis up to 20% of its assets in bank deposits at sight, such as cash held in current accounts with bank accessible at any time, in accordance with the provisions of Article 41(2) of the Law of 17 December 2010. Notwithstanding the above provision, the above mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavorable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors, for instance in highly serious circumstances such as the September 11 attacks or the bankruptcy of Lehman Brothers in 2008.

■ The Sub-Fund is actively managed without reference to a benchmark.

■ This Sub-Fund promotes environmental and social characteristics in furtherance of Article 8 of the SFDR Regulation, but it does not have a sustainable investment objective.

■ Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 3 years.

Redemption and dealing: Investors may request redemption of shares on a daily basis, no later than 12 p.m., Luxembourg time, one business day preceding the relevant valuation day.

Distribution policy: Non-distributing shares: any income generated by the Sub-Fund is reinvested.
