## What is this product?

### Type

- This product is a class of shares of the Sub-Fund and denominated in USD. The Fund is an open-ended investment company with variable capital ("SICAV") and qualifies as an Undertaking for Collective Investments in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 related to undertakings for collective investments ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

### Investment objective:

- The objective of this Sub-Fund is to maximize total return (the combination of income and growth of capital) through investments in fixed income UCITS and/or other UCIs.

### Investment policy:

- The investment objective will be achieved by adopting a fund of funds investment policy.
- The Sub-Fund invests exclusively in fixed income UCITS (including European exchange traded funds) as well as, on an ancillary basis (up to 30% maximum), in other UCIs (all together referred as the "underlying funds").
- The underlying funds' investments include fixed income securities such as corporate bonds, US Treasury obligations and other US government and agency securities. The target issuers are mostly listed in, domiciled in, or the main business of which is in OECD countries and investment grade.
- The underlying funds selection approach centres around manager expertise, low cost, and risk management. The approach encompasses both quantitative evaluation of performance patterns and portfolio positioning, along with qualitative assessments of firm, people, philosophy, and processes.
- The Sub-Fund exposure, through its investments in underlying funds, in high yield securities (i.e. below investment grade investment fixed income strategies) and emerging market countries will not exceed the 20% of its assets in aggregate. The objective of the Sub-Fund is not to invest in distressed or defaulted securities, although it may have indirect marginal related exposure with an expected maximum of 10%.
- The Sub-Fund will not seek indirect exposure to issuers listed in, domiciled in or with main activities within the People's Republic of China and Russia at the date of this Prospectus as well as to securitised instruments such as asset-backed securities and mortgage-backed securities, although it may have indirect marginal related exposure (with an expected maximum of 10% on an aggregate basis).
- It should be noted that investments in the underlying funds may entail a duplication of certain fees and expenses. The investment management fee of the underlying funds may then not exceed 1.50% of the Sub-Fund's net asset value.

- For treasury purposes and in case of unfavourable market conditions only, the Sub-Fund may invest in debt securities (such as money market instruments), treasury bills, bank deposits and any other eligible assets listed under article 41(1) of the law of 2010.
- The Sub-Fund may lastly hold on an ancillary basis up to 20% of its assets in bank deposits at sight, such as cash held in current accounts with bank accessible at any time, in accordance with the provisions of Article 41(2) of the Law of 2010. Notwithstanding the above provision, the above mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavorable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors, for instance in highly serious circumstances such as the September 11 attacks or the bankruptcy of Lehman Brothers in 2008.
- The Sub-Fund is actively managed without reference to a benchmark.
- This financial product does not promote environmental or social characteristics and does not have as its objective a sustainable objective.
- The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.
- Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 5 years.

**Redemption and dealing:** Shareholders may redeem their shares in the Sub-Fund on each business day in Luxembourg.
