## What is this product?

### Type

■ This product is a class of units of the Sub-Fund and denominated in EUR. The Fund is an open-ended common fund with variable capital (*Fonds Commun de Placement* or "FCP") and qualifies as an Undertaking for Collective Investments in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 related to undertakings for collective investments ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.

■ As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

### Investment objective:

■ The Sub-Fund will follow a fund of fund strategy in order to gain exposure to both equity and fixed income, with a global approach and without focusing in any sector in particular.

### Investment policy:

■ The Sub-Fund will seek to achieve its investment objective by investing mainly in a portfolio of eligible UCITS, other UCIs and exchanged traded products ("ETPs"), including but not limited to exchanged traded funds ("ETFs") and exchanged traded commodities ("ETCs") that will have exposure to a range of asset classes including, but not limited to, equity securities, debt securities, money market instruments and commodities.

■ The Sub-Fund will invest mainly in UCITS, other UCIs and ETPs that will have exposure to equity, however, depending on the investment manager's expectations, the Sub-Fund's global equity exposure could be substantially decreased, but will not fall below 10% of its assets. Issuers of the underlying investments may be located in any country, including emerging markets.

■ The methodology followed by the investment manager involves a top-down strategical approach. Therefore, the selection of eligible UCITS, UCIs and ETPs is performed after the analysis of market opportunities and potential risks based in economic trends or indicators (inflation, interest rates, GDP...). ETFs will be used to facilitate the exposure of the Sub-Fund to a broader coverage of assets classes with low correlation, or to obtain access to specific markets (including emerging markets ex-Russia) and to niche innovative sectors. Thus, there is not a prefixed ponderation of these types of assets as are part of the core strategy.

■ The Sub-Fund may indirectly invest up to 40% of its assets in companies domiciled in, or with main activities in emerging markets.

■ The Sub-Fund may indirectly invest up to 10% of its assets in companies domiciled in, or with main activities within the People's Republic of China, Hong Kong and Macao.

■ The Sub-Fund may also invest in debt securities (such as money market instruments), treasury bills, bank deposits listed under article 41(1) of the law of 2010 for treasury purposes and in case of unfavourable market conditions.

■ The Sub-Fund may use financial derivative instruments for both hedging and/or investment purposes. The types of derivatives may include, but are not limited to, single stock and equity index futures comprised by a basket of securities listed within a specific stock market such as but not limited to Standard & Poor's 500 Index, Dow Jones Industrial Average Index or the DAX Stock Index (including its respective E-Mini's), options, currency futures and forwards.

■ The Sub-Fund may hold on an ancillary basis up to 20% of its assets in bank deposits at sight, such as cash held in current accounts with bank accessible at any time, in accordance with the provisions of article 41(2) of the law of 2010. Notwithstanding the above provision, the above mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavorable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors.

■ It should be noted that investment in other UCITS and/or other UCIs may entail a duplication of certain fees and expenses. The investment management fees of other UCITS and/or other UCIs may not exceed 1.50% of the Sub-Fund's net asset value.

■ The Sub-Fund is actively managed without reference to a benchmark.

■ This financial product does not promote environmental or social characteristics and does not have as its objective a sustainable objective.

■ The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

■ Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 5 years.

## How long should I hold it and can I take money out early?

### Recommended Holding Period ("RHP"): 5 years

The RHP has been defined by taking into account the above investment policy and risk and reward profile. You should be prepared to stay invested for at least 5 years. A dilution levy may be charged in case of redemption or conversion of units. Unitholders may redeem their units on any valuation day provided that the request for redemption is received in Luxembourg prior to 2:00 p.m., Luxembourg time, on the business day immediately preceding the applicable Valuation Day. Any cashing-in before the end of the recommended holding period may have a negative consequence on your investment.

In order to prevent dilution effect, the Management Company has the power to charge a "dilution levy" on the subscription, redemption and/or conversion of units. If charged, the dilution levy will be paid into the Sub-Fund and will not exceed 2% of the relevant net asset value per unit.
