The Commission de Surveillance du Secteur Financier ("CSSF") in Luxembourg is responsible for supervising Andbank Asset Management Luxembourg in relation to this Key Information Document.

SENSEI is authorised in Luxembourg and regulated by the CSSF.

This product is managed by Andbank Asset Management Luxembourg, which is authorised in Luxembourg and supervised by the CSSF.

Accurate as of: 26 August 2025

What is this product?

Type

- This product is a class of shares of the Sub-Fund and denominated in GBP. The Fund is an open-ended investment company with variable capital ("SICAV") and qualifies as an Undertaking for Collective Investments in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 related to undertakings for collective investments ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Investment objective:

- The Sub-Fund seek to obtain an increase in the value of long-term investments by creating a global diversified portfolio.
- The choice of investments will not be limited geographically, nor by economic sector, nor in term of asset class, nor in terms of currencies in which investments will be denominated. However, subject to prevailing conditions, a particular focus can be placed in a single country and/or in a single currency and/or in a single economic sector.
- Allocation will be flexible according to market dynamics. The Sub-Fund's equity allocation may be increased when prices experience sharp corrections that imply excessive pessimism or during periods of technical recovery signals. Fixed income instruments will gain relative weight when prevailing yield levels exceed long-term averages, thereby enhancing the portfolio's income component under favorable conditions.
- Asset selection will rely on quantitative and qualitative methodologies: selection of UCITS and other UCIs will be based on ratio analysis and metrics, while correlations and overlap between them will be measured to reduce directionality and enhance diversification, fixed income investment decisions will primarily be driven by a risk-adjusted yield assessment and equities will be selected using factor analysis methodology and technical chart analysis.

Investment policy:

- The Sub-Fund is actively managed and will seek to achieve its investment objective by investing in selected portfolio of mixed international assets, such as but not limited to equity and fixed income instruments, UCITS and other UCIs and money market instruments.
- The Sub-Fund will invest a maximum of 60% of its net assets, directly or indirectly through underlying UCITS/UCIs, in equity and equity-linked instruments (including but not limited to ordinary or preferred shares and American depositary receipts/global depositary receipts (ADRs/GDRs)), and a minimum of 40% in fixed income instruments (including but not limited to treasury or corporate bonds, notes, fixed-rate or floating-rate bonds), directly or indirectly through underlying UCITS/UCIs, trackers or exchange traded funds (ETFs).
- The Sub-Fund will primarily invest in the OECD countries, but it may however take exposure to emerging markets funds up to 40% of the assets of the Sub-Fund including indirect investments in China up to 20% of the net assets through ADRs/GDRs and investment funds.
- The Sub-Fund may use financial derivative instruments for both hedging and/or investment purposes. The types of derivatives may

include, but are not limited to, single stock and equity index futures and options and currency futures.

- The exposure to non-investment grade debt securities (high yield securities) with a credit rating below BBB- (Standard and Poor's or an equivalent rating assigned by another independent credit agency) will not exceed 80% of the Sub-Fund's net assets directly or via investments in other UCITS or UCIs.
- This limit is intended to provide the investment manager with flexibility to adjust exposure in response to market conditions when risk-adjusted returns are attractive (e.g., improving credit fundamentals or widening spreads) and reduce it in less favorable environments (e.g., higher interest rates or tighter spreads).
- In the event that an issuer's credit rating is downgraded, the issuer's credit standing will immediately be assessed and appropriate actions for any specific instrument of the relevant issuer within the Sub-Fund may be taken. These actions could include selling the underlying holdings or retaining the holdings to maturity depending on the specific characteristics of the instrument; in either event, the decision will be based on what is in the best interest of the shareholders of the Sub-Fund.
- The Sub-Fund may invest in aggregate up to 20% of its net assets in contingent convertible bonds (CoCos), convertible bonds and hybrid bonds directly or via investments in other UCITS or UCIs. Investments in CoCos will not exceed 10% of the net assets.
- The Sub-Fund may invest up to 10% of its net assets indirectly in commodities via eligible UCITS, ETFs or exchange-traded commodities (ETCs). No direct exposure to commodities will be permitted.
- The Sub-Fund may hold on an ancillary basis up to 20% of its assets in bank deposits at sight, such as cash held in current accounts with bank accessible at any time, in accordance with the provisions of article 41(2) of the Investment Fund Law. Notwithstanding the above provision, the above mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors.
- The Sub-Fund is actively managed without reference to a benchmark.
- This financial product does not promote environmental or social characteristics and does not have as its objective a sustainable objective.
- The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.
- Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 5 years.

Redemption and dealing: This product is valued on a daily basis (the "Valuation Day"). If such day is not a bank business day in Luxembourg, then the Valuation Day will be the following bank business day. Shares may be subscribed or redeemed no later than 3:00 p.m. (Luxembourg time) on each bank business day preceding the applicable Valuation Day.

Distribution policy: Non-distributing shares: any income generated by the Sub-Fund is reinvested.

Intended Retail/Institutional Investor

This share class is available for retail and institutional investors. There is no minimum investment.

Term

This product was incorporated for an undefined period. The manufacturer may not terminate it unilaterally. The board of directors may terminate this product under the conditions set forth in the prospectus.

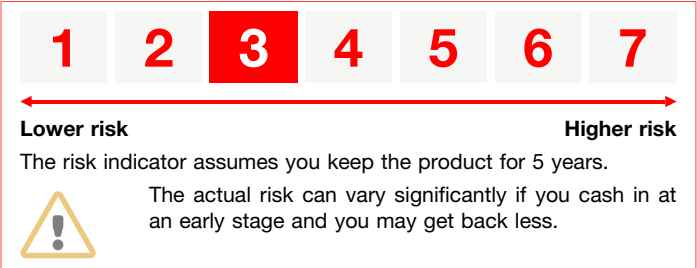

Practical information

Depository: Quintet Private Bank (Europe) S.A., 43 Boulevard Royal, L-2449 Luxembourg.

Further information: The prospectus of the Fund and periodic reports are prepared for the entire Fund. Assets and liabilities of each sub-fund are segregated by law, meaning that the liabilities allocated to one sub-fund may not impact the other sub-fund. Shareholders are entitled to convert their shares in shares of another sub-fund/shares of the Fund, as described under "Conversion of Shares" section of the prospectus. Copies of the prospectus and of the last annual and semi-annual reports as well as other practical information such as the latest price for the shares may be obtained free of charge, in English, at the registered office of the Fund: 4, rue Jean Monnet L-2180 Luxembourg, Grand Duchy of Luxembourg and on the following website: www.andbank.com/luxembourg/.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performances of the product over the last 10 years, by identifying, depending on the performance scenarios and as defined in the Key Information Document's EU regulation, all overlapping sub-intervals individually (i) equal in length to the recommended holding period which start or end in each month which are contained within that period of 10 years or (ii) equal or shorter in length to the recommended holding period, but equal to or longer than one year, which end at the end of that period of 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 12 October 2017 and 12 October 2022.

Moderate: this type of scenario occurred for an investment between 20 December 2019 and 20 December 2024.

Favourable: this type of scenario occurred for an investment between 20 March 2020 and 20 March 2025.

Recommended holding period		5 years	
Example Investment		£ 10,000	
Scenarios		if you exit after 1 year	if you exit after 5 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	£ 6,252 -37.5%	£ 5,168 -12.4%
Unfavourable	What you might get back after costs Average return each year	£ 7,784 -22.2%	£ 10,368 0.7%
Moderate	What you might get back after costs Average return each year	£ 10,896 9.0%	£ 13,580 6.3%
Favourable	What you might get back after costs Average return each year	£ 15,608 56.1%	£ 18,474 13.1%

What happens if Andbank Asset Management Luxembourg is unable to pay out?

You are exposed to the risk Andbank Asset Management Luxembourg, might be unable to meet its obligations in connection with the product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in the product. A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed (i) in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario and (ii) £ 10,000 is invested.

Example Investment £ 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	£ 99	£ 691
Annual cost impact*	1.0%	1.1%

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 7.4% before costs and 6.3% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	0.00% , we do not charge any entry fee. In case of conversion into another class or another sub-fund, no conversion fee is charged but you may be requested to bear the difference in subscription if higher.	up to £ 0
Exit costs	0.00% , we do not charge an exit fee for this product, but the person selling you the product may do so.	up to £ 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.94% of the value of your investment per year. Such estimate has been carried out by adopting as proxy either a comparable PRIIP or a peer group.	£ 94
Transaction costs	0.05% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	£ 5
Incidental costs taken under specific conditions		
Performance fees	0.00% . This is an estimate, calculated on an annualised basis, based on the average over the previous 5 years. We charge 3% of the positive performance over the high water mark. The actual amount will vary depending on how well your investment performs.	£ 0

How long should I hold it and can I take money out early?

Recommended Holding Period ("RHP"): 5 years

The RHP has been defined by taking into account the above investment policy and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty prior to the end of the RHP, or hold the investment longer. Investors may request redemption of shares no later than 3.00 p.m., Luxembourg time, on the business day preceding the applicable Valuation Day. Redemption requests received after this time and date will take effect on the next following Valuation Day. The redemption price shall be paid no later than 2 business days following the applicable Valuation Day. Any cashing-in before the end of the RHP may have a negative consequence on your investment.

How can I complain?

Any investor enquiries or complaints should be submitted to the Management Company at Andbank Asset Management Luxembourg, 4, Rue Jean Monnet, L-2180 Luxembourg, Grand Duchy of Luxembourg or at compliance@aaml.lu and any response will be made in writing. The complaints handling policy established by the Management Company may be requested, free of charge, by contacting the Management Company at the email address compliance@aaml.lu or through the following website: www.andbank.com.
