					2 Transfer bet	ween my account

New features for issuing and managing transfers, both between the user's own accounts and between domestic and international accounts.

In the case of international transfers, it is possible to select the allocation of the operational costs on a shared basis between the sender and the beneficiary of the transfer.

Management of standing orders and regular beneficiaries.

Options

- Standing orders
- Regular beneficiaries

Breakdown of products linked to savings, with information on the typology, reference currency, interest rate, maturity, volume and total amount.

Possibility to sort by type of currency.

More information on loans

Information on the capital granted, outstanding debt, interest rate, amortised capital, paid interest, dates, number of instalments, etc.

The new platform enables the user to view historical movements, past and future amortisation tables and a pie chart with the percentage of amortised capital.
