**John McEnroe afirmaba: "La bola entró"**

El factor de aceleración global se acelera (+17.000 con respecto a los contagios de ayer), pero entra dentro de lo previsible ya que países como los EUA aceleran el uso tests. De esta aceleración global vista hoy (59k vs 42k de ayer) en el número, USA contribuye en un 20%.

El mejor dato, sin duda, viene de Italia, ya que sigue "controlando" la cifra de contagios. Y como bien apunta mi buen amigo Soprani, sigue subiendo el número de tests practicados (sólo hoy se ha batido el el record diario de pruebas-test, del orden de 27.500 en un solo día).
